Reflexw upgrade/update pricelist

ReflexW 9.0: a Windows9x/XP/7/8/10-based computer program for processing and interpretation of

- **GPR** (Ground Penetrating Radar) data (reflection and borehole-borehole)
- **seismic reflection and refraction** and borehole-borehole data

upgrade prices, this means an upgrade to new Reflexw modules	standard licence	academic licence
Upgrade of the the basic 2D-Reflexw program for the 2D-processing and interpretation of GPR and seismic reflection data to 3D data-interpretation (incl. Reflex3DScan)	EUR 700	EUR 525
Upgrade of the the basic 2D-Reflexw program for the 2D-or 2D/3D processing and interpretation of GPR and seismic reflection data to modelling with wavefield simulation and travelttime inversion	EUR 600	EUR 450

update prices, this means lifelong free updates of the existing licence	standard licence	academic licence
Update price (lifelong free updates) from an existing older Reflexw licence (includes only the Reflexw modules of the old licence, no upgrade) REFLEXW lifelong free update service	EUR 500	EUR 375
Update price (lifelong free updates) from an existing older licence Reflex2DQuick	EUR 200	EUR 150
Update price (lifelong free updates) from an existing older licence Reflex3DScan	EUR 200	EUR 150
Update price (lifelong free updates) from an existing older licence ReflexVibro	EUR 200	EUR 150

All prices are net in EURO and subject to change without notice. The academic licence prices are valid for universities and other educational or pure research institutions. The delivery is by e-mail (download) including a pdf-formatted manual.

A **site licence** (unlimited number of installations and simultaneous uses within your institute) amounts the double price for each Reflexw configuration mentioned above.

A **site licence** for Reflex2DQuick and/or Reflex3DScan (unlimited number of installations and simultaneous uses within your institute) amounts the triple price for a single licence mentioned above.
