## Reflexw upgrade/update pricelist

**ReflexW 10.4:** a 64/32 bit Windows7/8/10-based computer program for processing and interpretation of

- **GPR** (Ground Penetrating Radar) data (reflection and borehole-borehole)
- **seismic reflection and refraction** and borehole-borehole data

<b>module extension</b>	<b>standard</b> single lic. with valid update service	<b>standard</b> single lic. incl.lifelong update service	<b>academic</b> single lic. with valid update service	<b>academic</b> single lic. incl.lifelong update service
The prices are double for a <b>site licence</b> .				
module extension to <b>3D data-interpretation (incl. Reflex3DScan)</b>	EUR 700	EUR 1100	EUR 525	EUR 800
module extension to <b>modelling with wavefield simulation and travelttime inversion</b>	EUR 700	EUR 1100	EUR 525	EUR 800
module extension to <b>3D data-interpretation (incl. Reflex3DScan) and modelling with wavefield simulation and travelttime inversion</b>	EUR 1200	EUR 1600	EUR 900	EUR 1200

<b>site licence upgrade from a single licence</b> - this means an unlimited number of installations and simultaneous uses within your institute	standard	academic
REFLEXW GPR/reflection seismics 2D	EUR 1200	EUR 900
REFLEXW GPR/reflection seismics 2D/3D	EUR 1800	EUR 1350
REFLEXW refraction/reflection seismics and GPR 2D	EUR 1800	EUR 1350
REFLEXW complete 2D/3D	EUR 2300	EUR 1700

<b>update</b> prices, this means lifelong free updates of the existing licence	standard licence	academic licence
Update price (lifelong free updates) from an existing older Reflexw licence (includes only the Reflexw modules of the old licence, no upgrade). The prices are double for a <b>site licence</b> .		
<b>REFLEXW lifelong free update service</b>	EUR 600	EUR 450

All prices are net in EURO and subject to change without notice. The academic licence prices are valid for universities and other educational or pure research institutions. The delivery is by e-mail (download) including a pdf-formatted manual.
